EXPERIENCE

Do It Today Learning Network, Livermore — *Design Editor*

June 2021 - August 2021

In the summer of 2021, I worked for my dad's company, assisting in formatting a book that was soon to be published. I transferred content from an excel sheet to a word document and designed the look using appropriate font sizes, font colors, and correct spacing. My work was then sent to publishing and the book was released in the winter of 2021.

Coldstone Creamery, San Ramon — *Crew Employee*

March 2022 - Present

I am currently working as a crew employee at Colstone. I scoop ice and make ice cream for customers, I make waffles for waffle cones and cups, and I restock items. I have learned great customer service working here and how to handle angry customers.

EDUCATION

California High, San Ramon — *Graduating June 2024*

August 2020 - Present

I am in my sophomore year of highschool, an honor roll student, and preparing to go to college to study engineering. I am currently taking a college-level Graphic Design class through DVC. I have also taken an Advanced Tech class where I built miniature bridges out of balsa wood and small robots with a circuit board.

EXTRA CURRICULAR

Empower Martial Arts, Dublin — *Black Belt*

May 2013 - Present

I started Kajukenbo, a mixed martial art, in May 2013. I had trained for seven years to get my first degree black belt and I am currently working towards my second degree black belt. I have been practicing at the same dojo for nine years and have learned what it means to be responsible, committed, have good discipline, and have good manners.
